

Quick Start Guide

1. Attach webcam to the stand/clip of your choice and position accordingly.
2. Plug webcam USB cord directly into the USB outlet on your computer. Do not plug through a USB hub.
3. The Credential Cam is plug and play for MAC OS 10.4.3 and greater and Windows XPsp2, Vista and 7 users. Mac and PC drivers are also included for extra functionality.
4. Ensure the Credential Cam webcam is selected in the chat program you are using as both video and audio source (input). The built-in microphone runs directly through the same USB cord.
5. Focus the webcam by turning the lens ring on the front of the webcam.
6. For further instructions, refer to the installation guide in the accompanying instruction manual.
